Rabies Increase Brings Cautions From State Unit

Rabies appears to have increased in Kentucky's livestock and wild animals during 1956, according to Dr. R. L. Hectorne, director, Division of Veterinary Public Health, Kentucky State Department of Health. Up to September 1, a total of 223 cases of rabies in animals were confirmed by the department laboratories. For the same period of time last year 183 cases had been confirmed.

During the first eight months 1846, the laboratory has discovered 25 per cent more rabid foxes and 100 per cent more rabid bats than the same period of 1955.

Dr. Hectorne emphasized the following for dealing with possible rabies:

1. Any person bitten should be placed under a physician's care immediately.

2. Any animal that has bitten a person or another animal or is suspected of having rabies should be confined for 14 days. The local health department should be notified.

3. Observe the animal daily and watch for any unusual symptoms.

4. Do not destroy the animal before he shows definite signs of rabies.

5. If the animal does not show signs of rabies, do not destroy it by chemical poisoning, clubbing on the head or shooting in the head. These methods destroy the brain tissues and make laboratory tests difficult if not even impossible.

6. Pack the head of the suspected animal in a water-tight metal container, which in turn should be packed in a box for shipping to a laboratory.

Ninety positive cases of rabies in dogs have been discovered this year, 69 cases were discovered in the same period last year.

Hectorne said rabies among dogs has not increased because of the large number of dogs which have been vaccinated as required by the 1954 Rabies Law.

"In view of the increase of rabies among cats, it would be well have the family cat vaccinated," Dr. Hectorne said.

J'town Optimists To Organize Junior Club

An organizational meeting to form a junior club will be held at the Jeffersonontown Optimist Club at 7 p.m. Friday, October 26, at the Legion Hall on College Drive.

Kentucky's Lieut. Gov. Harry Lee Waterfield was principal speaker for the Jeffersonian's Annual Meeting dinner at Montgomery October 11.

Others on the program included Alabama Gov. James E. Folsom and the state's national Democratic chairman and chairwoman, Charles McKay and Mrs. Leonard Thomas.

Waterfield was the guest of Gov. Folsom while in Alabama.

A preliminary report of the study of Kentucky road finances made by the Bureau of Business Research of the University of Kentucky has been released.

The study was conducted under the direction of Dr. James Martin, commissioner, Department of Finance, as a supplement to a highway need study completed by the Automobile Club Foundation last year. The report centers on the proposed 100-million-dollar road bond issue to be voted on November 6. The report is short and to the point.

Its conclusion is that the savings accruing to road users because of early highway improvement would more than offset interest costs on the bonds. Four million dollars are saved are listed.

Glamour and pageantry merged Shelyburn's annual Tobacco Festival October 18.

The festivities opened early and lasted until midnight in the gaud-decorated town which celebrated a day dedicated to "King Baudouin."

The city held open house to people from everywhere to observe harvest of the golden leaf.

Event included all-day entertainment, radio telecasts, performances by helicopter riders; a parade including colorful floats, marching bands, the national anthem, and the U.S. Marine Corps band. The band, the 2nd Marine Band, from Quantico, Va., played on the main stage.

It was reported that 10,000 people attended the festival.

William G. Monahan, a member of the teaching faculty at Murray State College, has been appointed assistant director to Dr. Robert R. Martin, state superintendent of public instruction.

Monahan, 29, is a former instructor in social studies and football coach at Marion High School. He is a native of Bowling Green.

Formerly associated with the Cynthiana Press and the Evansville Courier, Monahan will handle public relations for the Department of Education.

Dr. Paul E. Schneek, Louisville, has been appointed director of the State Division of School Health. He also is acting director of the Division of Material and Child Health of the Kentucky Department of Health.

Schneek, 33, was in private practice before his appointment. Prior to this he spent two years as a medical student at the U.S. Army Medical Corps, serving in Germany two years.

He has been a resident in pediatrics, having worked a year at the Children's Hospital in Cincinnati, and two years at General and Children's hospitals, Louisville.

Dr. Schneek has several projects for the Division of School Health next year. Included will be an expansion of the hearing program, an effort to discover and assist school children with hearing defects. Also to be emphasized will be the Maternal and Child Health program to assist mentally retarded children.

I wonder how the local No-kimos, left when a nephew of mine came back from Holland with his Minnehaha. But a good many years later, when my older brother brought back a bride from up the creek, and 1949, when my mother brought home a Dutch girl from Holland with Sulphur Springs.

Two of my brothers were among the No-kimos that thus strayed far away to find their mate. I wonder whether there might be legends about her that have not been told. She may have drowned herself in some small river of the Northern Peninsula of Michigan and is now a star or a constellation, just like similar Greek maidens, and lads, too.

I wish I could know who the "maiden of her people" was that old Nokomis wished Hiawatha to marry; I wonder whether there might be legends about her that have not been told. She may have drowned herself in some small river of the Northern Peninsula of Michigan and is now a star or a constellation, just like similar Greek maidens, and lads, too.

Fun? Yes—but be careful. Fire is always a hazard, and burns can be painful and dangerous. Don't start a fire without a match or a lighter. If you are ever caught in a fire, get out as quickly as possible. If you are ever caught in a fire, get out as quickly as possible. If you are ever caught in a fire, get out as quickly as possible.

If the Mallonites are sincere why don't they compromise to allow communities to vote themselves into incorporated status and warrant remaining in the City of Louisville if I felt that I could vote to secede from Louisville with the rest of the community? I am for the plan, then I shall have less objection to having a trial period, say one to five years. Once you are elected, then for the rest of your life, you will have the money to move further out.

I am strong for the Mallon Plan to be defeated, and will do all I can to see that it is defeated—Jack C. Kyer, Whipple Mill Road.

And as for those leaves—you are wasting a fine means of enriching your soil if you burn them. Add them to your compost pile or use them as a mulch around plants and trees. That's the safe way, as well as the thrifty way. Burning leaves have a habit of getting out of hand and burning up more than themselves.

If you must burn burning leaves, keep your piles small and the hose handy.—Dawson Springs Progress.

The government now uses a check writing machine which produces 100 checks a minute. But, apparently, this machine is obsolescent. A new one is on order—and it will zoom out the checks at the rate of 300 a minute. That is about as typical a sign of the times we live in as anyone could imagine.—Kemmerer (Wyo.) Gazette.

THE AMERICAN WAY

The Hocus - Pocus That Produces Cheap Public (Political) Power

WORKERS REJECT "PUBLIC" POWER

One of the objectives of the Free Power Project conducted by the National Education Program at Harding College seven years ago, was to plan a program of economic education for men and women in American industry so that the working people, white collar workers and the executives, representatives of all were present at the Forum. Much work and material was developed at this first Forum which much more has been developed in subsequent Forums.

Among the most active companies in the field of fact finding on American economic system to their employees has been the electric power industries. Fifteen major electric companies sent people to the Forum.

People in the electric power industries are notably well informed on the principles of the American economic system, the great comparative advantages which they bring about, these advantages being created and developed through the functioning of the system. A dramatic illustration of the value principle of private ownership which is the keystone of our American system, was an advertisement which appeared recently in the NEW YORK TIMES.

FOR YOUR INFORMATION

This full-page ad was entitled "Labor Force Government Development of Niagara Power." It was paid for by the New York State Association of Electrical Workers, a union with 80,000 members, and the International Brotherhood of Electrical Workers, when 550,000 members throughout America. The ad took place in the issue of the magazine which was good enough to attract some of the hoiy-toiys. Sometimes cousins, with an assurance of good blood and breeding, married in these early days; sometimes the young age could tell of having relatives that are double kin to us.

It does not take much probing into family history to see how limited the choice of a mate is little better than the average, for I think that most youngsters have a great fear that they will merely follow family or neighborhood customs and share no originality. When I recall how many new things came into even Fidelity in this country because of these daring young Hiatas, I wish I could write a poem and set off the echo of Longfellow's telling how humanity, even an faraway places, somehow adapts to conditions such as those at Fidelity or Podunk or wherever you may be.

Newburg News

By Mrs. J. H. Shively

A beautiful fall day was Sunday, October 14, and what a glorious privilege to have the opportunity of attending Sunday School and worship services at Newburg. The Lord was working in Louisville, and when we obeyed the 8th Commandment, "Remember the Sabbath, to keep it holy."

After hearing the talk by Mr. Whittaker, our Beach & Sylvester and our minister concerning our Educational Building in the near future, we are getting very visionary about it, but we must not center our minds too much upon other phases of the Lord's work.

Mrs. J. E. Stanford still remains very nervous and weak at St. Anthony Hospital. Remember her in your prayers and send her a cheery card.

Mr. and Mrs. Charles Allan Nuttall are the happy recipients of a son, born Tuesday, October 9, in St. Petersburg, Florida. The young weighed 9 pounds and 10 ounces and was named Allan Pryan Nuttall.

Congratulations are extended to the parents, grandparents, Mr. and Mrs. Paul Nuttall and to the great grandparents, Mr. and Mrs. Thomas Yannas.

The grandparents on the mother's side are Mrs. Ida Pryor Utton and Dr. D. C. Utton, formerly of Louisville. The boy's father is in the service and stationed at Fort Belvoir, Va.

Mrs. Nuttall and young Charles Allan are visiting their mother, Mrs. Utton at St. Petersburg.

Mr. and Mrs. Vernon Thompson moved last week to their new stone home on Prestons Highway, just west of Olmos.

Mr. and Mrs. Homer Thomas and sons spent the weekend near Bardstown, Ky., visiting his parents, Mr. and Mrs. Darwin Thomas.

The service station at Richland Drive and Bardstown Road is nearing completion. Lights are turned on at night making it quite a night spot in the neighborhood.

Mrs. Dawson Dugan, Ashland, Ky., was the guest for several days of her son, Mr. William Ferguson, on Bardstown Road.

Mrs. Leonard Tyler, Mrs. Fielden Frederick, Mrs. Hugh Tolben, and Mrs. Homer Thomas were among those in this community who attended the show given by Mrs. Patrick Day at her home on Rosewood Avenue, Louisville, for Mrs. Norman Trevathan.

Mrs. William Norris spent one day last week with her aunt, Mrs. Daisy Lawson, in Strathmore. Mrs. Lawson, who has been ill for some time, is not much improved, we regret to report.
